

COMMUNITY

MITIGATION

Community mitigation plans are steps
that are taken on a larger scale to
slow the spread of disease

COMMUNITY SPREAD

Community spread means multiple people have been infected with a contagious disease in an area where people are not sure how or where they became infected.

The source of infection is unknown.

CONTACT SPREAD

Contact spread means that a person had contact with an individual who tested presumptively positive.

The source of infection is known.

SOCIAL DISTANCING

Social distancing means **staying away**
from **close contact** in public spaces.

QUARANTINE

- healthy person
- exposed
- staying at home + away from others

VERSUS

ISOLATION

- known case
- sick (even mild symptoms)
- staying at home + away from others
